

EXPLORER'S Must-do Checklist

Head down to African Treetops aviary for an African safari experience

Our newly revamped aviary allows you to come face to beak with a variety of African birds!

Catch our world class King of the Skies show

Be awed as our magnificent birds of prey swoop in right over your head! Remember to look out for Genghis, our Himalayan gryphon vulture, who was found dehydrated along Orchard Road but has now been nursed to health.

Are you as excited to meet our penguins as they are to meet you?

Penguin feed is available at only \$5 for the opportunity to hand feed our adorable birds. All proceeds from these feeding sessions help to fund out wildlife conservation efforts in the region.

Meet one of the world's largest raptors - the Philippine eagles!

Jurong Bird Park is the only zoological institution outside of the Philippines to house these magnificent eagles.

Watch our multi-linguist, Amigo, in action

This star of the High Flyers Show can not only speak, but sing in English, Chinese and Malay.

Cuddle up to a hornbill

Sign up for our Bird's Eye Tour for this unique experience, and even get the chance to feed a flock of Brahminy kite as they swoop over your head.
